

GRAFFITI REMOVAL

Secure Site (UK) Limited recognises that graffiti is a problem which blights many of our streets and buildings; it is an ever increasing problem which, when left untouched, encourages more graffiti or in some cases illegal rubbish dumping or further anti social behavior.

This form of urban vandalism can in some cases change the whole character of a neighborhood, reducing property values and lead to increased crime or fear of crime.

Why use us?

Secure Site (UK) Limited provides a quick and easy solution to this problem and can remove unsightly graffiti with minimal inconvenience and cost.

Having researched this area thoroughly we have chosen a range of products which utilises a migratory technology that penetrates and chemically fractures the molecular bonds in the paints.

- Quick and easy removal of graffiti
- 24hr response centre
- Environmentally friendly products
- COSHH Compliant
- No job too small

Once the removal gel is applied to the effected area, it is left to penetrate before being sprayed off. Persistent graffiti may need further applications before the stain can be fully removed. This product is environmentally friendly and complies with COSHH.
