

SECURITY FENCING

Permanent security fencing offers the best defence against unwanted trespass and with your perimeter secured you can rest assured that your land and property is protected.

The most common and effective fencing system is Palisade which comes as standard galvanised, or can be supplied in a range of colours as required. The Palisade system comes in a range of sizes in excess of 3.6m, can be finished with a tri point or rounded pails and can incorporate pedestrian and vehicular gates.

Why use us?

SecureSiteUK carry most common fence sizes in stock and can react to emergencies quickly installing a fencing system in a matter of days. We also provide a full fencing installation and repair service including:

- **Palisade Fencing**
- **Weld Mesh Fencing**
- **Railing Systems**
- **Anti Climb Systems**
- **Razor Wire**
