

# SITE CLEARANCE

When a property is vacated by a tenant or where a property has been vacant for many months it is not uncommon for a build up of waste to occur in some cases this can include hazardous materials.

SecureSiteUK are Licensed by the Environment Agency to clear and transfer waste. We offer a total site clearance and site sanitisation service, which will ensure that your vacant property or land is safe for use by your staff and or contractors.

## Why use us?

SecureSiteUK is proactive in its approach and provides a range of services to combat fly tipping and illegal waste disposal, including concrete blocking and fencing systems, which dramatically reduce the risk of reoccurrence.

SecureSiteUK will clear any waste from land or property and in partnership with our hazardous waste specialist can provide:

- Asbestos removal
- Car tyre removal
- Chemical removal
- Abandoned vehicle removal
- Oil removal
- Green waste removal
- Human waste removal
- General Site Clearance
- Drug use equipment removal
