

# TRAVELLER EVICTION

Having travellers trespass on your property can be very costly and inconvenient, often harassing neighbours, acting inconsiderately and with little regard for the law.

This does however not need to be the case, as landowners have the right under common law, to legally evict trespassers from private land.

## Why use us?

As your agent, SecureSiteUK can act on behalf of the landowner, without any redress, acting legally and within the law. Swift action will ensure that there is less waste to clear up and ensures the protection of your land or property.

With our many years experience in this area we have developed a range of complimentary services that can combat and reduce the risk of further occupation, including:

- **Concrete Barriers, blocking systems**
- **Temporary fencing systems**
- **Mobile patrols**
- **Waste clearance**
